

WEBINAR

EU plastics recycling industry in crisis:

Overcoming challenges and moving forward

What's happening & how to fix it

With low demand for recycled polymers threatening the industry's viability, finding solutions is more critical than ever. In this webinar, EuRIC will present its **EU Plastics Recyclers' Roadmap**, outlining key actions to foster a more innovative and competitive sector. Industry leaders will also share insights on overcoming challenges and advancing circularity in the plastics value chain.

14:30 - 16:00

4 March

ONLINE
